

CLOUD SMART – 3 Steps to Cloud Success

1 IDENTIFY

Discover need for cloud services

2 PLAN

Review California Cloud Services Assessment (CCSA) Website for requirements

Prepare system target Architecture, Cloud System Security Plan, Workforce readiness to support cloud

Document technical requirement for modernization

3 REVIEW

SUBMIT

Submit Case / Request for "Off-Premises Cloud Services" through CDT IT Service Portal

SUBMIT

Submit documents to SAFE

CDT Architects review cloud architecture, workforce, and security requirements and best practices

Identify areas of improvement and available solutions to meet department needs

Cloud customers **MUST** enroll in CDT SOCaaS.

Visit the **CDT SOCaaS website** for requirements.

SUCCESS

If approved, CDT will work with customer to initiate IaaS or PaaS implementation.
